Work Experience

Leafwell – Full Stack Developer

2021/Today

Leafwell is an online platform transforming medical marijuana evaluations. As a full stack developer, I contribute to building a user-friendly telemedicine platform, streamlining access to medical marijuana cards for eligible patients.

Minuscode – Full Stack Developer

2017/Today

At Minuscode, I serve as a full stack developer, contributing my expertise to craft tailored web and app solutions for diverse clients. My role involves building dynamic, user-centric platforms, playing a key part in delivering innovative digital solutions that cater to our clients' unique needs and requirements.

Technologies

Programming Languages

- Ruby
- JavaScript
- TypeScript
- Kotlin
- Java

Frameworks

- Ruby on Rails
- React.js
- Next.js
- Spring Boot

Databases

- PostgreSQL
- MySQL

Additional Technical Skills

- HTML5
- CSS3 (Including SASS/SCSS)
- Tailwind CSS
- Version Control (Git)
- RESTful APIs

CONTACT - Telemarketing Operator

2017

I served as a telemarketing operator at Contact for a three-month period. This experience honed my skills in effective communication, sales, and customer interaction, providing valuable insights into the dynamics of telemarketing.

Hypatia - Developer Intern

2015

In 2015, I interned as a developer at Hypatia, gaining hands-on experience in web solutions. This role laid the groundwork for my journey in crafting digital solutions, similar to my work at Minuscode.
